I CAN'T, HE CAN, I THINK
I'LL LET HIM
Liz Cardwell, R.N., L.P.C., LCSW

Early in my experience in working within the area of Chemical Dependency, I had a colleague who had been working with this population for many years. He utilized the phrases, I can't, He can, I think I'll let Him, likening these phrases to the first three Steps of the Twelve Step Program as he worked with chemically dependent clients. These short, succinct phrases appear to facilitate the individual's concept of beginning a Twelve Step Program.

I can't, refers to Step One which states, "We admitted we were powerless over alcohol-that our lives had become unmanageable." Webster defines powerlessness as, "lacking the authority or capacity to act." Step One entails actually admitting that there is no "control" over the use of chemicals"; use of the chemical cannot be blamed on unpleasant circumstances, life circumstances or other people. Additionally, there are the physiological factors that render physical powerlessness. Denial rears its' ugly head as those beginning recovery struggle with this Step. Hazelden literature states that there are two types of unmanageability: "social unmanageability", which refers to the situations that occur after the use of the chemical; "personal unmanageability", which refers to the attitudes/beliefs about life circumstances that exist and were probably present before the individual was chemically dependent.

He can, refers to Step Two which states, "We came to believe that a Power greater than ourselves could restore us to sanity." This does not necessarily mean that this Power is of a formal, religious group, it may be something outside of the recovering person which is a source of hope and power for the individual, e.g. the meetings, the

Recovery Program, etc. Step Two is the Step of hope.

I think I'll let Him, refers to Step Three which states, "We made a decision to turn our will and our lives over to the care of God as we understand Him." Step Three is the Step of faith, an expression that each individual has a God of their own understanding and is willing to take this risk as recovery begins.

Step Four - "We made a searching and fearless moral inventory of ourselves. The Fourth step is in essence a self assessment that involves courage on the part of the individual to look at destructive past behaviors. It is a time of identifying "secrets" that may exist so that the inventory is complete.

Step Five - "We admitted to God, to ourselves, and to another human being the exact nature of our wrongs." The sharing of one's private thoughts and feelings and past, possibly shameful actions, is the core of this step. This thoughtful "catharsis" is the beginning of self acceptance. The individual must find an appropriate individual with whom to share these "wrongs". It is the sharing of one's "story".

Step Six - "We were entirely ready to have God remove all these defects of character," and Step Seven, "We humbly asked Him to remove our shortcomings," go hand in hand in that when the individual recognizes that his Higher Power can remove shortcomings, he/she will be ready to ask.

Step Eight - "We made a list of all persons we had harmed, and became willing to make amends to them all." This step is the beginning of reconciliation, a time of looking at relationships and the impact past use and behavior of the recovering individual had on these persons.

Step Nine - "We made direct amends to such people wherever possible, except to do so would injure them or others." Amends are not completed by apologizing but by actions. If making an amend to an individual(s) would be destructive and only accomplish a ridding of

guilt on the part of the recovering individual it is best not done; there may be less overt means of making such an amend.

Step Ten - "We continued to take personal inventory and when we were wrong, promptly admitted it." This step is an ongoing recovery necessity; it really seems to be an extension of Step Four.

Step Eleven - "We sought through prayer and meditation to improve our conscious contact with God as we understood Him, praying only for knowledge of God's will for us and power to carry that out." Accepting what God's plan is the heart of Step Eleven.

Step Twelve - "Having had a spiritual awakening as a result of these steps, we tried to carry this message to alcoholics, and to practice these principles in all our affairs. Bill W. In Alcoholic Anonymous states, "Because of our kinship in suffering, and because our common means of deliverance are effective only when constantly carried to others, our channels of contact have always been charged with the Language of the Heart."

EMPLOYMENT GUIDELINES

Always ask to see an original Missouri license or temporary permit before the new employee reports to orientation. Inspect the permit or license to be sure it is an original. Here are some tips to help you inspect a license or temporary permit for authenticity.

- The license is light blue in color.
- The license is laminated.
- The name, license number and expiration date of the license is clear and does not appear altered.

Temporary Permit

- RN Temporary Permit - the face of the permit has a light pink background with purple shaded areas in which the name of the applicant, date permit issued, date permit expires, official signature and raised Board of Nursing seal. Tape is secured over the portion of the permit that contains the nurse's name, date permit was issued and permit expiration date.
- LPN Temporary Permit - the face of the permit has a light-green background with blue shaded areas in which the name of the applicant, date permit issued, date permit expires, official signature and raised Board of Nursing seal. Tape is secured over the portion of the permit that contains the nurse's name, date permit was issued a permit expiration date.
- Temporary Permits are only issued for a six-month time period.
- The Board never re-issues or extends temporary permits.

Verification of Licensure

- The face of the RN verification has a light-pink background, the LPN verification has a light-green background.
- The verification contains the date issued, Missouri license number, name and address of licensee and a raised Board seal.
- Tape is secured over the identifying data on the verification of licensure.

If you have any questions about the person's licensure status, please do not hesitate to contact the Board's licensure section at (573) 751-0681.

We have found that a nurse impostor is more likely to give a copy of a license or

temporary permit to an employer rather than an original. It is very important that you view the original document. If you need a copy for your files, make a copy and clearly indicate COPY across the copy of the license or temporary permit before you file it.

Graduate Exempted Practice Period

A graduate of a nursing program may practice as a graduate nurse until s/he has received the results of the first licensure examination taken by the nurse or until ninety (90) days after graduation, whichever first occurs.

In order for the Board to verify information about an exam applicant, the applicant must sign an authorization to release confidential information. A sample release form follows.

We encourage you to have every graduate nurse sign a release form and fax it to our office at (573) 751-0075.

The authorization will be placed in the exam applicant's file and when you call, we can release information to you about that graduate.

The exam is administered every day at Sylvan Technology Centers located nationwide. Exam candidates should expect to receive exam results approximately two weeks from test date.

NCLEX Manual

The Board of Nursing approved an NCLEX Manual and directed Board staff to mail this manual to all nursing programs, nursing associations and interested public. This manual contains the answers to commonly asked questions about the National Council Licensure Examination. If you would like a copy of the NCLEX Manual, please contact our office in writing or by calling (573) 751-0681.

BECOME A MEMBER

NCLEX PANELS

By participating in the NCLEX development process, you will have the opportunity to learn how the nursing licensure examinations are developed from job analysis through results reporting. In addition, you will have the personal satisfaction of knowing that you had input into the process through item writing, item reviewing, recommending a passing standard or serving on the Bias Sensitivity Review Panel.

Without participation by nurses like yourself, National Council would not be able to develop licensure examinations. Stop wondering what the NCLEX is all about and apply for one of the panels. The process is very simple, and applications are available from your state board of nursing or the National Council. The National Council will notify you about eight weeks before the session if you have been selected to participate. Pack your bags and start discovering!!
